DETAILED ACTION

Page 2

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/20/06 has been entered.

Response to Arguments

2. Applicant's arguments filed 9/20/06 have been fully considered but they moot in view of the new rejection.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Guidotti et al. USP6123692.

Art Unit: 3761

As to claims 1, 3, 6, 10, 11, 16, and 17, Guidotti et al discloses an absorbent article as shown in Figures 1, 3, and 4 having a fluid receiving layer 18b, a fluid storage layer 19, a fluid distribution layer 18a (considered a distribution layer in that it distributes fluid to the underlying storage layer 19), and a fluid barrier layer 11,21. The fluid receiving layer 18b is arranged in at least the crotch area of the article in direct or indirect fluid contact with the fluid distribution layer 18a. The fluid storage layer 19, fluid receiving layer 18b, and fluid distribution layer 18a each have longitudinal end edges that extend along the longitudinal direction, and transverse end edges that extend along the transverse direction.

The fluid distribution layer 18a is arranged to extend in the crotch portion and in at least a substantial portion of one of the waist portion of the article and is absent in at least a substantial part of the opposite waist portion (Figure 3). The fluid barrier 11,21, is arranged at or in close proximity to the transverse end of the fluid receiving layer 18b located adjacent the crotch portion (Figures 3-5). The fluid barrier 21 extends at least a substantial part of the thickness of the fluid receiving layer 18A (Figures 4 and 5).

As to claims 2, the fluid receiving layer 18b is disposed in the crotch portion and in at least as substantial part of the rear portion (Figures 3-5 and col. 4, lines 9-23).

As to claims 12 and 13, Guidotti discloses the fluid barrier 21 comprises plastic, foam, or nonwoven materials (col. 2, lines 60-63).

As to claims 14 and 15, the claims are directed to a process of making the fluid barrier. "Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of

Application/Control Number: 10/671,541 Page 4

Art Unit: 3761

a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." In re Thorpe, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985) (citations omitted). MPEP 2113.

Allowable Subject Matter

5. Claims 4, 5, 7, and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacqueline F. Stephens whose telephone number is (571) 272-4937. The examiner can normally be reached on Monday-Friday 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tanya Zalukaeva can be reached on (571) 272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 3761

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
